

BLUE RIDGE LOG CABINS

Pillars of Distinction

WHEN YOU CHOOSE
BLUE RIDGE LOG CABINS,
YOU CAN TRUST ...

Our Innovation

*Exceptional quality whole, kiln-dried log homes.
Expertly assembled in a climate-controlled
state-of-the-art facility.*

Blue Ridge Log Cabins use the highest-quality, all-natural building materials and only the finest logs. Our team carefully selects and kiln-dries each log to contain less than 18% moisture – this means no warping, no mold, no settling, and no worries. Then we fully assemble your home with extreme craftsmanship and attention to detail. We control the technology, the assembly, the workers, the materials, and the time frames. You control what matters to you – like just how soon you'll spend your nights gazing at stars from your porch, or snuggled up in front of your fireplace.

The best materials. Whole, kiln-dried logs. Expert assembly.

Our Results

*Premium log homes ready in as little as six weeks,
and with our amazing “One Day Experience” we
will deliver a beautiful log home to your land and
have it up before the day is over.*

Your dream to live in a traditional log home can come true now. No waiting months or years. Blue Ridge Log Cabins are built on schedule, with no delays. There are no issues of snow, or rain, or contractors not showing up. We are constantly reassessing our procedures and processes to continuously improve the quality, cost and delivery of our homes. We leave no extra steps, no loose ends, and no unanswered questions. When you work with Blue Ridge Log Cabins, you know you're working with an experienced leader in the industry.

An amazing one-day experience.

*Our Hassle-Free
Building Experience*

Complete building packages, offering our homeowners inspired designs and the most all-inclusive log home building options.

When you select Blue Ridge Log Cabins you're not settling for the ordinary. Casual-elegance, comfort, charm, and simplicity are often words used to describe our traditional log home styling. We pride ourselves in remaining flexible and offering the kind of selection our competitors simply can't deliver. We finish not only all the electrical, plumbing, flooring, windows and doors – but also the household appliances, cabinetry, fixtures, shelving, and a whole lot more. The secret to our strong selection is our broad range of product choices from quality, national brands, giving you features normally only available on high-end custom homes. Our design process offers many floor plans and models with upgrades and options for maximum flexibility and style. This means the home you build will be as unique as the traditions and memories you'll share inside it.

Complete log homes, dreams included.

*Our
Building Efficiency*

*A Blue Ridge Log Cabin is one that evokes
the spirit of the past while integrating all the
efficiencies, conveniences and amenities
of the 21st century.*

Each and every home is constructed, under one roof, within our industry-leading facility. Quality engineering and the latest construction techniques significantly increase the energy efficiency of your new log home. Our unique approach allows for easier identification and filling of gaps around pipes, electrical outlets, windows and doors. Not only does this make our log homes tighter, but it allows for less air infiltration and advanced energy efficiency, resulting in lower heating and cooling costs for the homeowner. Our homes are more energy efficient and our home construction is significantly more environmentally friendly than our site-built counterparts.

Green, Efficient, Fast.

*Your
Piece of Mind*

The industry's only turn-key price guarantee. Unlike all other log home builders and unheard of in-home building, Blue Ridge Log Cabins guarantees that the price on your agreement is the final price for your home.

At Blue Ridge Log Cabins, we build complete log homes, not kits. We will not drop off a shipment of log siding and drive away. Rather, our knowledgeable team will help you select the home and options you want. Once we know where you would like to build your new home and which dream home you've selected, we can give you exact pricing on your completed Blue Ridge Log Cabin right down to the light bulbs! We'll search for the best financing programs and lending rates, and we'll walk you through every step of the experience, whether you're building in your home town or several states away. We'll create the house of your dreams and we'll work with you and your contractor to eliminate the guesswork. And we will deliver and finish a beautiful, completed, solid log home – with no extra charges, no hidden costs, and no delays.

Your decision is good.
